Thank you for your support of Cornell University Cooperative Extension Erie County. Please read this letter carefully.

When you enroll in Cooperative Extension, you become part of a network linked directly into Cornell University and the most current research. Cornell Cooperative Extension is a publicly-assisted organization supported through participation fees, program attendance, community involvement and donations which further our mission of *“Building Strong and Vibrant New York Communities.”* Please consider a donation over and above the enrollment costs of the Erie County Association. *(IRS regulations state that only the amount paid in excess of the participation fees is the amount that can be claimed as charitable donations. This acknowledgement also serves as verification that no goods or services were provided to you as a result of this contribution.)*

Agriculture/Horticulture Enrollment is \$65.00 per year. Enrollees receive a subscription to “Growing Panes” Newsletter three times per year for Horticulture producers and/or “Erie/Wyoming County Farm News,” six times per year, for Agriculture producers.

Please check all business interests that apply:
