11/29	49.1	55.5	2.32	
11/30	38.3	56.0	2.38	

¹Temperature is measured in degrees Fahrenheit.

²Wind run is measurement of the "amount" of wind passing the station during a given period of time, expressed as "miles of wind". Wind run is calculated by multiplying the average wind speed for each archive record by the archive interval.

³Snow depth is measured in inches.
