There are all types of disasters out there from fire, water shortage, power outages, pandemic flu, to computer security. Check out the NY (EDEN) disaster website for fact sheets covering severe weather, natural disasters, and agrosecurity. Other websites are provided to give you additional relevant resources.

Emergency Preparedness.....is the Key

1. Create a disaster plan for your family
2. Put together a disaster supply box
3. List emergency numbers and a contact sheet
4. Decide on how to handle your family pets and /or other farm animals
5. Discuss various types of disasters with your family and make plans for each type
6. Practice your plan
